... How to start marketing a startup?!

What is startup?

Startup is –

A startup is a temporary organizational structure characterized by rapid growth and launch, which is engaged in the commercialization of promising innovative products and services in an environment of increased risks.

definitions given to the startup

- **Steve Blank**
A startup is an organization formed to search for a repeatable and scalable business model
- **Eric Ries**
A startup is a human institution designed to deliver a new product or service under conditions of extreme uncertainty.
- **Paul Graham**
A startup is a company designed to scale very quickly. It is the focus on growth, unconstrained by geography, which differentiates startups from small businesses.

#1 viral marketing & growth hacking: building marketing into a product

“Marketing is needed for companies with only sucked products” – Fred Wilson, VC

how to build marketing into a product?

The easiest way to measure the probability that a user will recommend your startup is to use a survey with an evaluation system.

#2: Conversion optimization:

Conversion rate optimization (CRO) is the practice of increasing the percentage of users who perform a desired action on a website.

How to find out customer problems?

- Ask visitors to complete a survey. This usually needs to be stimulated with a discount or small gift.
- Arrange custom tests with UserTesting.com

- Install a live chat plugin that allows you to chat with site visitors in real-time
- Invite a customer you know for lunch or a Skype conversation

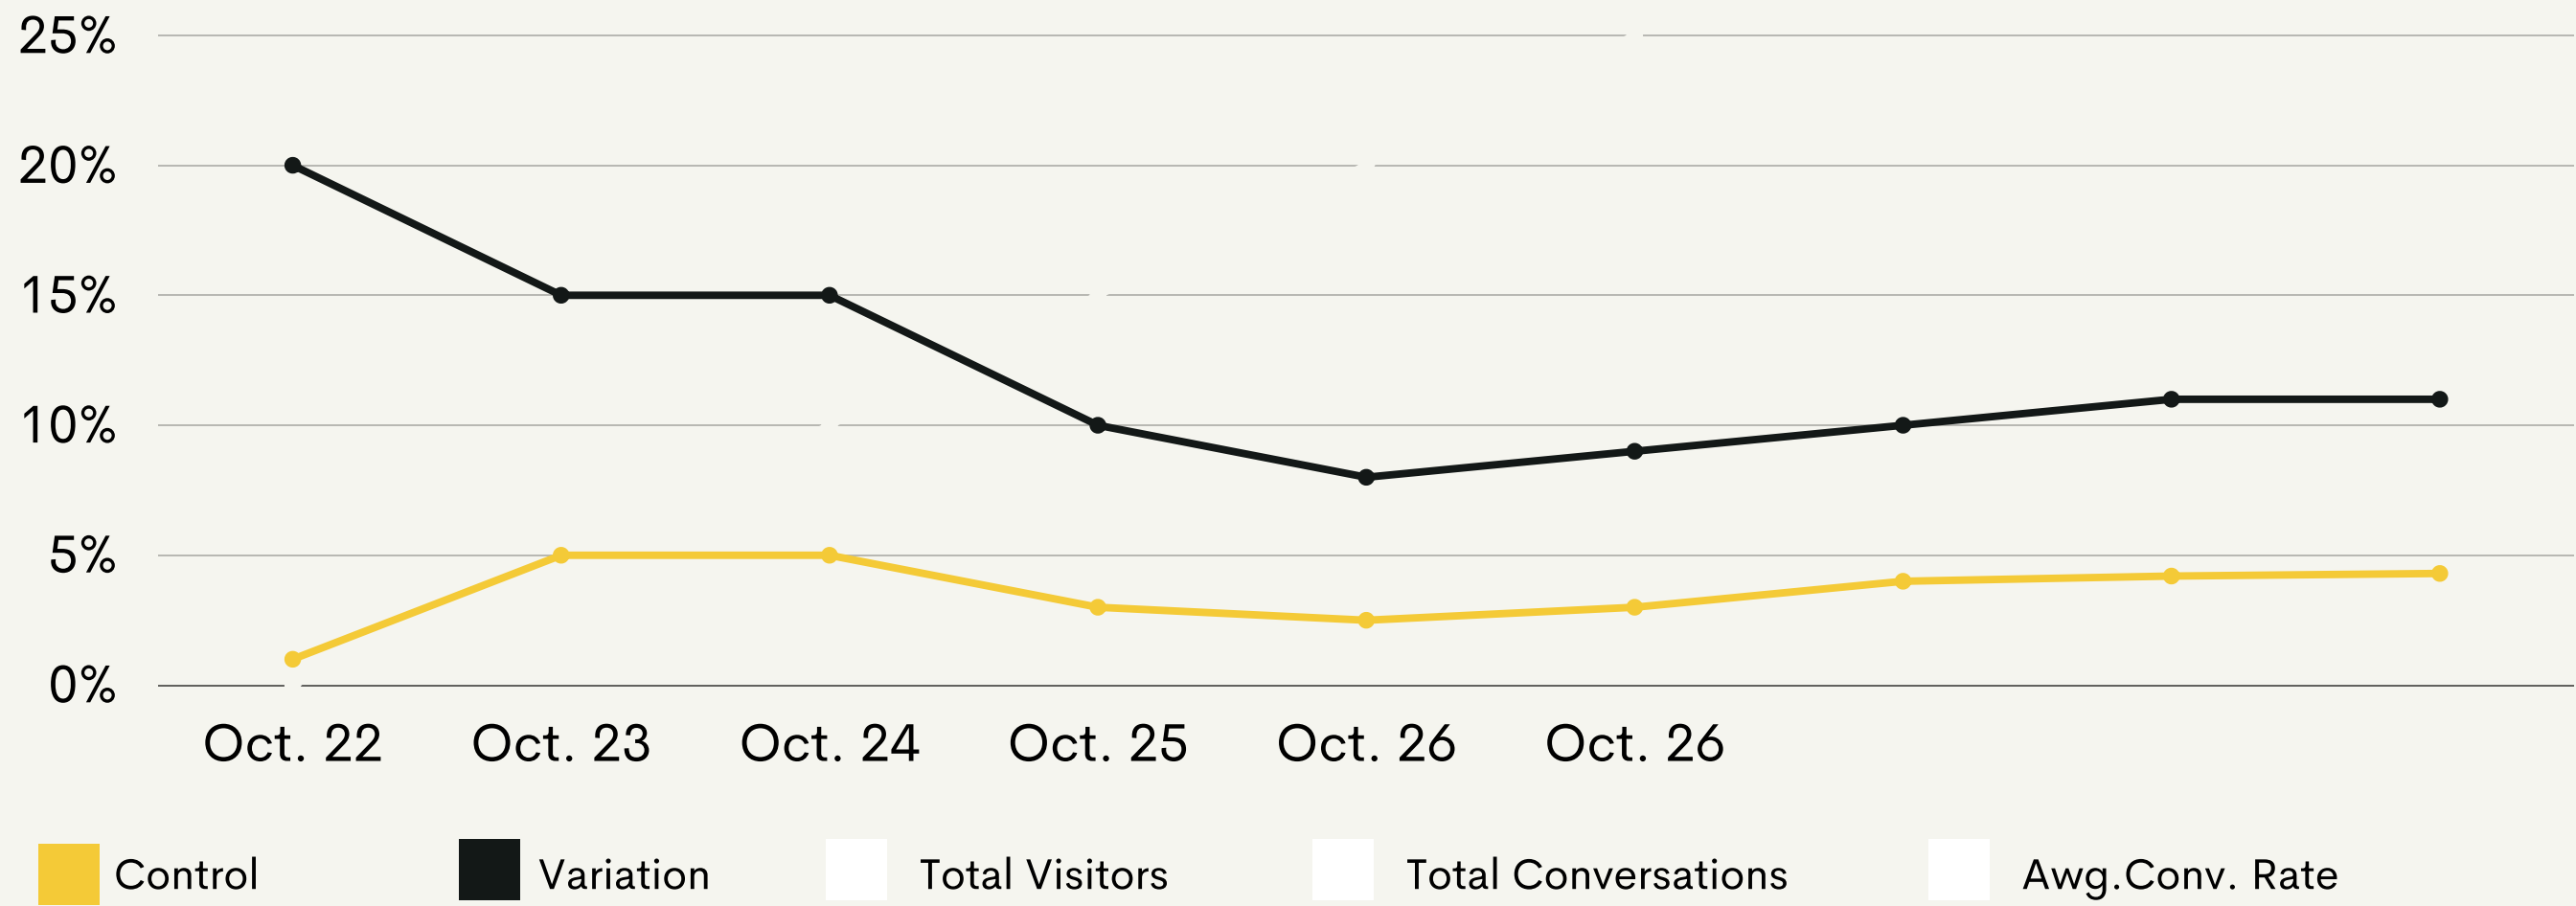

- Ask for feedback on the forum where your customers are present

how to
improve the
conversion
probability?

Where to start?

| Variations | Conversion Rate Range | Percentage Improvement | Chance to Beat Original | Conv/Visitors | Action |
|---------------|-----------------------|------------------------|-------------------------|---------------|----------------------------------|
| Control | 4.12% ±3% | - | - | 4 / 97 | <input type="button" value="📄"/> |
| 👉 Variation 1 | 10.20% ±4% | +147.45% | 95% | 10 / 98 | <input type="button" value="📄"/> |
| Average Case | 7.18% ±2% | - | - | 14 / 195 | - |

Customer orientation

Customer orientation

is a business philosophy that puts the needs of the customer over the needs of the business. It's a way of thinking that aligns your business goals with your customers' goals.

Customers are the business!

#making a product strategy

A Startup Marketing Strategy is

a marketing plan that fits the limited budget of a startup and promises quicker growth than traditional marketing strategies.
