

**Course Name:** Software Engineering  
**Topic:** Software Reuse  
**Instructor:** Dr. Obuhuma James  
**Activity:** Homework Marking Guide (Topic/Week 12)

**Task:**

In reference to the requirements engineering process carried out in the homework for topic/week 5 and the system models develop in topic/week 7, if you were to develop the system for the retail shop, discuss any way in which you could apply software reuse. Be as realistic as possible and provide real examples of what you would reuse. [10 Marks]

*Marks should be awarded (distributed) based on following aspects per model:*

- a) Appropriateness of the suggested reuse type [4 Marks]*
- b) Real examples of identified objects, functions, components or systems to be reused [2 Marks]*
- c) Demonstration of proper understanding of software reuse [4 Marks]*
